- Programming Languages
JavaScript, Kotlin, Dart
- Tools
Git, GitHub, Expo Cli, Android Studio, VS Code, Postman
- Concepts
OOP, RESTful API
- Frameworks
Flutter, React Native
- Express.js
- Databases
Firebase, MongoDB

EDUCATION

Fourth-year Information Technology student at Thu Dau Mot University

GPA: 7.0/10

2021-2026

PROFILE

I am a final-year student majoring in Information Technology at Thu Dau Mot University, passionate about mobile application development. I have knowledge of Android programming with Kotlin and cross-platform development using React Native. I am seeking an internship opportunity to apply my knowledge in practice, improve my skills, and contribute to mobile application development projects.

PROJECTS

Job Finder App 11/2024-1/2025
Solo Project

- A mobile application that connects job seekers and employers. Job seekers can create profiles, browse and apply for jobs. Employers can register, post job listings, and manage applications.
- Key Features: User authentication, job search & filter, job posting, apply & save jobs.
- Technologies: Kotlin, Firebase (Auth, Firestore), GitHub
- Link GitHub: https://github.com/son0411/ck_androi.git
- Link Demo: https://youtu.be/jFih_JRsi=nD0g3p8zfYcKbl0f

Tutor - Student Connection System 9/2025-11/2025
Capstone Project - Solo Project

- A full-stack application that connects tutors and students for online and offline learning. Students can search and book tutors, while tutors manage profiles and teaching schedules.
- Key Features: Multi-role system (Admin, Tutor, Student), tutor search & filtering, lesson booking, real-time chat, online learning support, and VNPay payment integration.
- Technologies: Flutter, React.js (TypeScript), Node.js, Express.js, MongoDB (Mongoose), Firebase (Auth, Storage), JWT, Socket.IO, VNPay.

- Link Demo: <https://youtu.be/2OGspyi0D2M?si=puYWGasJz-30TavS>

LANGUAGES

- English (Reading Comprehension)

WORK EXPERIENCE

IT Learning App - Én Việt Media

2/6/2025-28/7/2025

Internship Project | Team Project

- A mobile application for learning IT with three user roles. Students can join classes and view lessons. Teachers can create classes and manage students. Admins can upload tests and manage content.
- Key Features: Multi-role support, class management, student tracking, test uploading
- My Role: Responsible for designing and implementing the teacher interface using React Native and Firebase.
- Technologies: React Native, Expo, Firebase, GitHub
